Feedback on the Shipley Nature Center

We are asking you to take a few minutes to complete this short survey about the trails at Shipley Nature Center. The City of Huntington Beach is applying for a grant from the state to improve the trails in the nature center, including restoring the trail in the northeast corner of the nature center that was flooded by Blackbird Pond. As part of the grant application process, we are seeking the public's feedback about the trails at Shipley, and your input is most valuable. We appreciate you taking the time to complete this survey.

- How often do you hike/walk? A) 1 x week B) 2 x week, C) more than 3 x week, D) not at all
